

As an over the road truck driver I have found the XM Radio experience as one of the most valuable tools in the industry. Without the valuable services provided by XM Radio I would have to channel surf with only a small hope of gathering a small amount of information for my trip. Without the weather and traffic report well in advance I would spend hours in traffic and would run into severe weather and that cost me time and money. For once in your livew in Washington, don't screw with a good thing. LET XM RADIO LIVE and continue to provide the excellent services they now do. Thanks
